Hiring Manager

Impulsis

Subject: Application for Senior Node.js Developer Position

Dear Hiring Manager,

I am writing to express my interest in the Senior Node.js Developer role at Impulsis. With over four years of experience in backend development, I specialize in creating scalable, efficient microservices and delivering high-quality solutions using Node.js, TypeScript, MySQL, and GCP.

At ConvertCart, I successfully developed scalable microservices to handle lakhs of events and SMS, optimized complex queries to enhance system performance, and implemented Test-Driven Development (TDD) practices to ensure code reliability. Additionally, I bring expertise in real-time systems (Socket.io) and REST API design, skills directly aligned with the requirements of this role.

Your innovative AimLab project, integrating gaming platforms and analytics, excites me. My experience with cloud platforms, debugging, and database optimization would allow me to contribute effectively to your mission of delivering a seamless, scalable user experience.

I am drawn to Impulsis's commitment to collaboration and innovation. I would welcome the opportunity to bring my technical expertise and passion for problem-solving to your team.

Thank you for considering my application. I look forward to discussing how I can contribute to the success of your exciting projects.

Best regards,

Sourabh Semalty
